

Welcome to WEINIG

InTech 2010

in Tauberbischofsheim

27. - 29. October 2010

9:00 - 18:00 hrs

Welcome

to the 19th International WEINIG InTech in Tauberbischofsheim. Our claim has always been to set technological standards in solid wood processing. That is why once again this year's in-house exhibition is a magnet for ambitious experts from all over the world. In the spirit of the LIGNA motto 2011 „Making more out of wood“ we will be presenting numerous profitable and economic solutions for processing the ecofriendly material of the future: wood.

Come and visit us and experience live ground-breaking advances in technology with WEINIG 100 % Quality.

We wish you a pleasant journey and an information-packed visit to Tauberbischofsheim.

A handwritten signature in blue ink, appearing to read 'W. Pöschl', is centered on the page. The signature is fluid and cursive, with a large initial 'W'.

Wolfgang Pöschl
CEO

Our future lies with wood

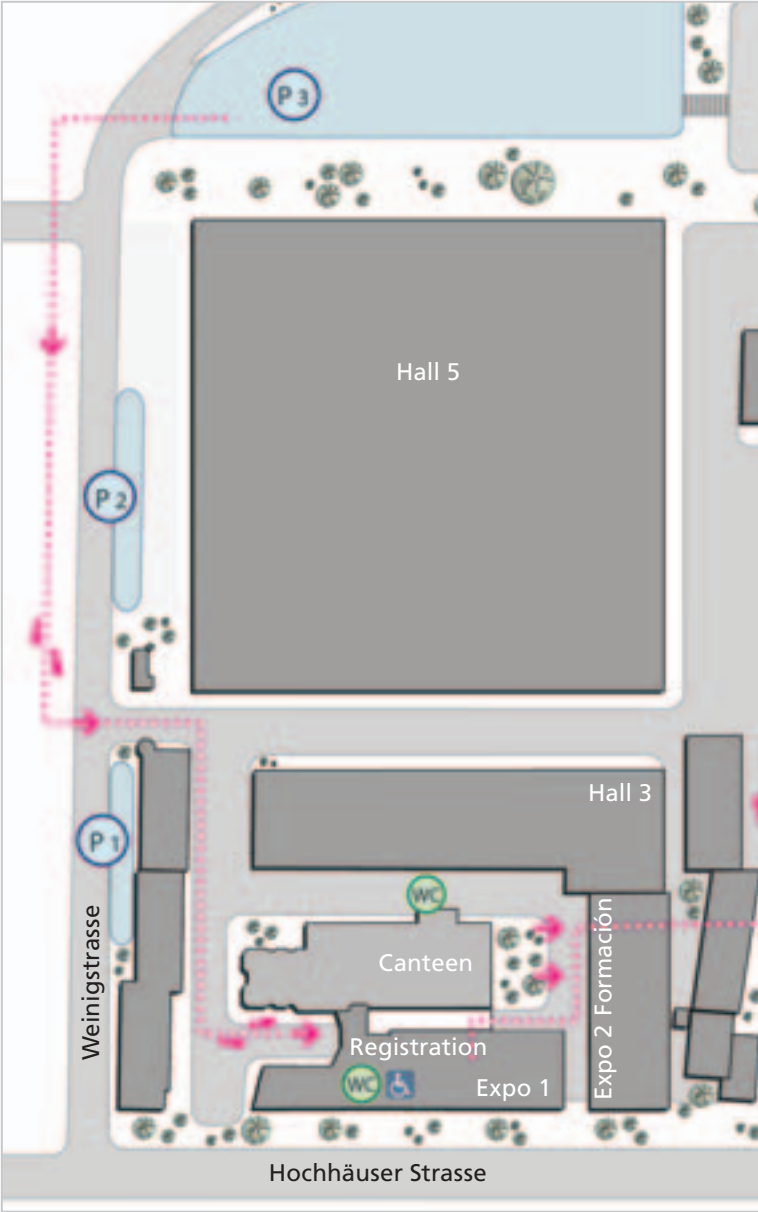

Responsible use of resources is the main challenge for our society. Fossil fuels are inevitably coming to an end; too much energy is consumed making conventional building elements. In contrast, wood offers everything the material of the future must have. Wood is renewable, CO₂ neutral and has excellent insulating qualities as well. Wood will play an important role in the world of tomorrow. And you are in the forefront.

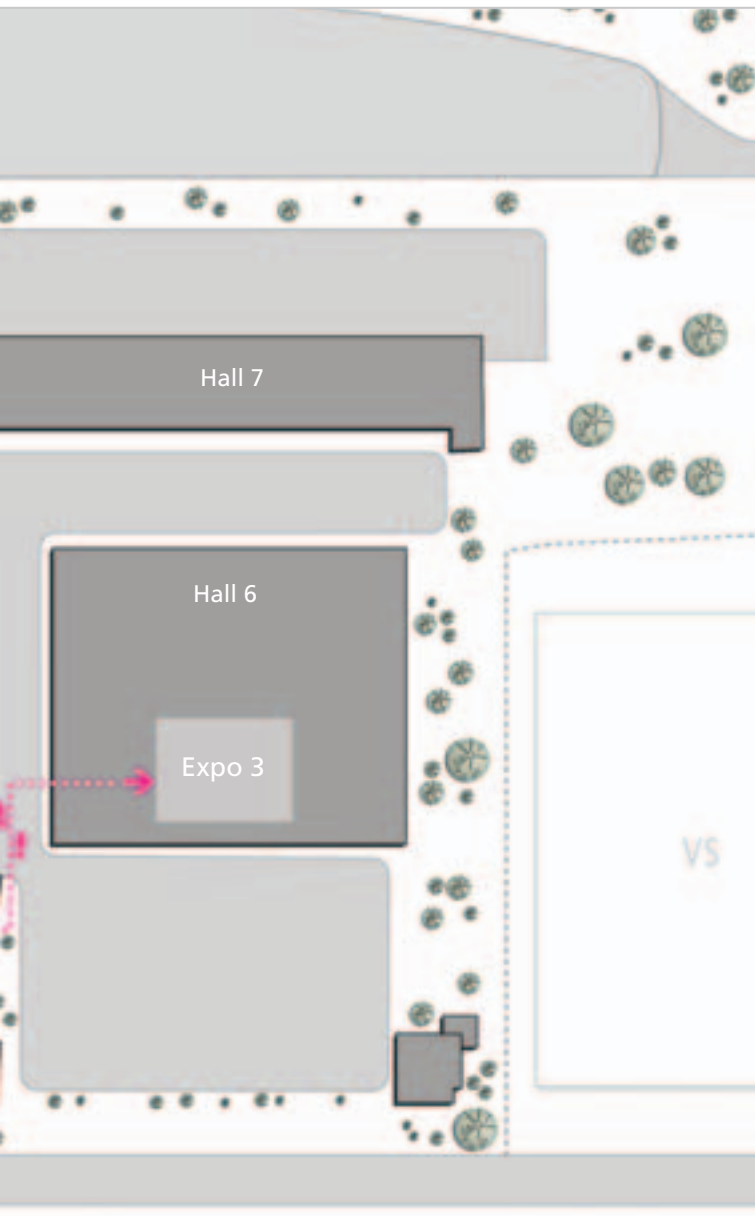

Grow with WEINIG

WEINIG is the only company in the market which has committed itself to solid wood in its entirety. With technology which is perfect for the time. With ideas which make wood, the raw material of the future, attractive economically. In all areas – from interior finishing to windows to timber framework. With groundbreaking solutions for wood optimization to energy saving systems for machines and the perfect answer to new trends such as structure planing.

Overview of the hall

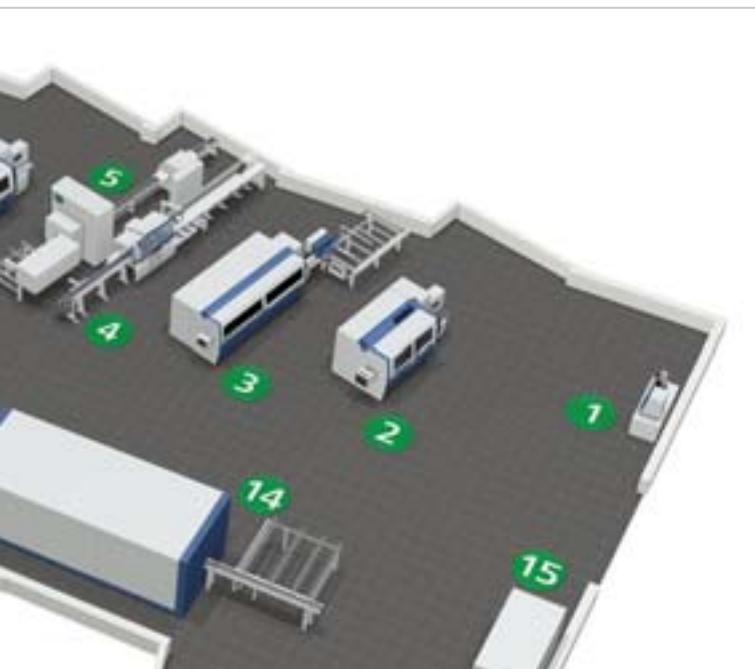

Expo 1

WEINIG solid wood processing

- 1 OptiControl** tool measuring system and CNC template cutter
- 2 Powermat 1000** planer and moulder with EM 11 pull-in magazine
- 3 Powermat 2000** planer and moulder with EM 1 flat magazine
- 4 OptiCut S 90** cross-cut saw with chalkless marking system
- 5 OptiCut 450 Quantum II** cross-cut saw with **CombiScan+ C200**
- 6 Powermat 500** planer and moulder with groove guide and mobile spindle
- 7 Powermat 2000** planer and moulder with
- 8 Powermat 2000 SP** double splitting saw and EM 20 pull-in magazine

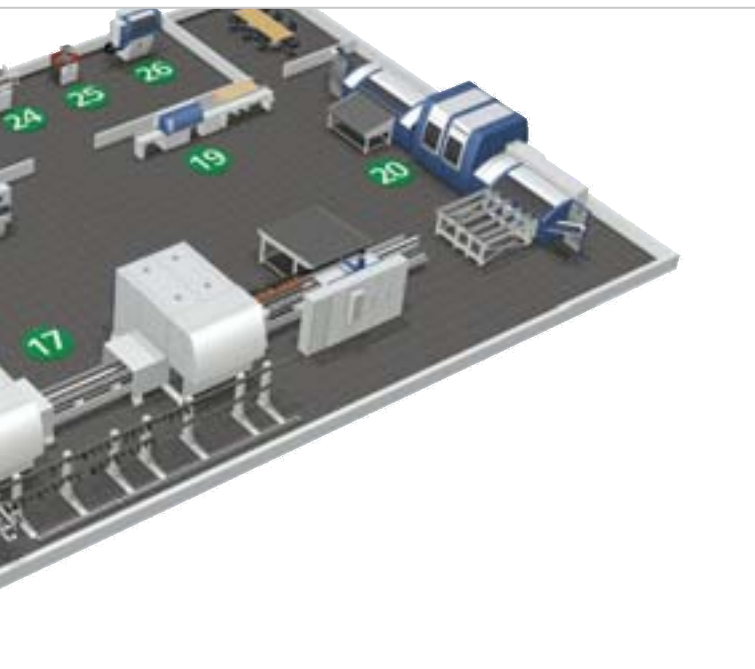

- 9 Variomat** value added moulder
- 10 Powermat 400** planer and moulder with EasyCom
- 11 FlexiRip 3200** separating saw with the cross-cut saw FlexiCutt
- 12 ProfiRip KR 310 M** separating saw
- 13 Ultra TT** finger jointing line
- 14 Powermat 2500** planer and moulder with ServoFeeder automation
- 15 Lean-Lift** tool magazine

Expo 2

WEINIG window production

- 16 Unicontrol 6** window processing center
- 17 Conturex 226** profiling center with infeed mechanism and tool changer
- 18 Powermat 500** planer and moulder (windows)
- 19 OptiCut S 50** cross-cut saw with marking laser
- 20 Conturex 114** profiling center with infeed mechanism

WEINIG tools and grinding systems

21 **OptiControl** and CNC
template cutter

22 **Rondamat 960 HSK**
tool grinder

23 **Rondamat 960 HSK**
tool grinder

24 **Rondamat 960 HSK**
tool grinder

25 **Rondamat 168**
tool grinder

26 **Rondamat 980**
tool grinder

Expo 3

Individual customized solutions for rapid and variable production of large and small series

WEINIG Hydromat 3500

- 7 working spindles
- Feed speed 150 m/min
- ServoFeeder automation

WEINIG Powermat 1000

- 9 tool holders
- 260 mm (11.8") working width
- PowerSet control
(exclusively at the request of the customer)

WEINIG cross-cut and planing line for window production

- OptiCut S 90 Window with cross conveyor, sorting belt and central computer function
- Powermat 500 Window with automatic infeed and short piece package
- Fully automatic horizontal alignment with barcode label for subsequent processing with the Conturex 226

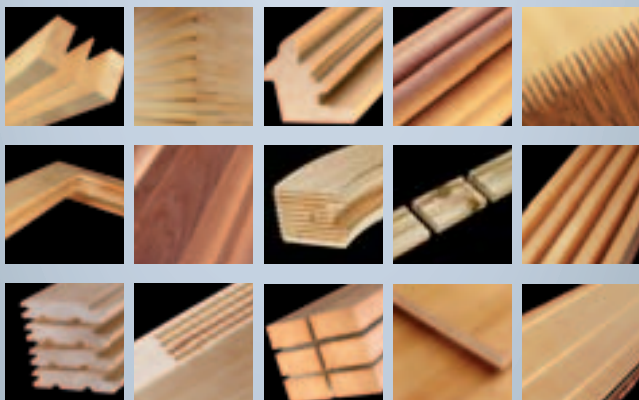

Weinig offers more

You can concentrate on your business and we will do the rest for you! WEINIG is more than the leading technology provider for the solid wood processing industry and small businesses. From comprehensive services and economic system solutions to turnkey production facilities, WEINIG is the ideal all-round partner wherever flexible, profitable production is required. Together with our unequalled worldwide service, WEINIG offers you a complete package so you are fully equipped for every challenge in the market of the future: „solid wood processing“.

WEINIG QUALITY

Everything for solid timber processing.
Everything from a single source. We give our 100%!

RIPPING · CROSS-CUTTING · OPTIMIZING · FINGER JOINTING

GLUING · PLANING AND PROFILING · WINDOW PRODUCTION

SINGLE PART MANUFACTURING · AUTOMATION

**Expertise in
solid wood processing
for small businesses
and industry.**
